OVERVIEW

- Frontend and Shopify developer building fast React websites and custom Shopify stores. Since September 2024 at Ingversions Digital (remote), built the company website and Coteamspace (an HRMS & payroll product website) from scratch in React, and built custom pages, product pages and Liquid sections for 4 Shopify stores. Also works on QA: A/B tests, bug fixes and cross-browser testing on BrowserStack.

EDUCATION

Lucknow Public College of Professional Studies, Lucknow University **2021 – 2024**
BCA - Computer Applications - ***CGPA - 7.2*** *Lucknow, Uttar Pradesh*

EXPERIENCE

Frontend Developer at Ingversions Digital * **September 2024 - Present**
Role - React Developer, Shopify Developer and QA Engineer *Remote*

- Built the company website (ingversionsdigital.com) and Coteamspace (coteamspace.com) from scratch in React.
- Maintained and updated the company's main React-based website.
- Built and customized Shopify themes using Liquid: custom pages, product pages, dynamic templates and sections.
- Optimized front-end components for speed, SEO and responsiveness.
- Collaborated with the QA team on A/B testing and bug fixes; cross-browser testing on BrowserStack.

PROJECTS

Ingversions Digital * | React **2025**

- **Designed a responsive, modern UI** enhancing brand presence and user experience.
- **Integrated reusable components** and efficient state management for scalability.
- **Optimized performance and SEO** with smooth navigation and cross-browser compatibility.

Coteamspace * | React

- **Built from scratch in React** – HRMS & payroll product website.

Shopify Stores | Shopify, Liquid

- **Custom pages and product pages** for four brands:
- Match With Nature (eco laundry), The Bloomi (wellness), Ruff Greens (pet nutrition), Grooved Learning (kids' learning).
