OVERVIEW

- Passionate Web Developer with experience in React, JavaScript, and modern UI design. Skilled in creating responsive, high-performing web applications and collaborating with QA teams. Eager to apply my expertise to build impactful digital experiences and grow as a developer.

EDUCATION

LU, Lucknow Public College of Professional Studies, Lucknow **2021 – 2024**
BCA - Computer Applications - ***CGPA - 7.2*** *Lucknow, Uttar Pradesh*

EXPERIENCE

Frontend Developer at Ingversions **September 2024 - Present**
Role - React Developer, QA Engineer and Shopify Developer *Remote*

* Developed responsive web interfaces using React, JavaScript, HTML, and CSS.
* Collaborated with QA team for A/B testing and bug fixes.
* Optimized front-end components for speed and responsiveness.
* Maintained and updated company's main React-based website.
* Conducted thorough testing to ensure seamless functionality.
* Built and customized Shopify themes using Liquid, ensuring optimized and scalable e-commerce solutions.
* Implemented dynamic Shopify templates and sections to enhance user experience and store performance.

PROJECTS

Ingversions Digital | React **2025**

* **Designed a responsive, modern UI** enhancing brand presence and user experience.
* **Implemented smooth navigation**, optimized performance, and cross-browser compatibility.
* **Integrated reusable components** and efficient state management for scalability.
* **Optimized performance and SEO** for faster load times and visibility.

Booking App | MERN Stack, IDE - VS Code **2024**

* **Developed a basic booking website using the MERN stack** that allows users to browse and book accommodations similar to Airbnb.
* **Implemented essential features** such as listing properties, user authentication, and booking functionality.
* **Focused on core functionality** with potential for further enhancements in UI/UX and additional features.
